

F2 Pupil

I receive daily physio whilst at school.

Year 2 Pupil

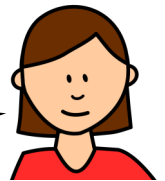

I receive FFT.

How do your exercises help you?

Teacher

What happens in your intervention with Mrs Hyke?

Teacher

My legs feel better.

Reading and writing everyday ... and practice words. I practice in a book and on a whiteboard. I put the paper in the bin after I've cut up my sentences.

Do you feel supported when you are at school?

Teacher

How does this help you in class?

Yes. It's about when you need help and support. About when you struggle. They try to explain things. Sometimes you use resources like in maths, like bricks to count.

Year 4 Pupil

It keeps my writing neat. Sometimes I use the computer to help me.

Do you have other resources that really help you to learn?

What resources do you really like to use in class?

I use an overlay. It helps you see better, makes the words big!

Maths equipment. It helps everyone that don't know high number sentences. We have beads to count on and special rulers for times tables. I can do high number sentences with these.

Teacher

Tell me about what helps you to learn and do well.

Year 5 Pupil

Sometimes I struggle with normal rulers. With my alligator ruler that Mrs Cherry gave me, there's a piece you can hold. It actually started in Year 4 when I found it hard to write when I was researching. They gave me a laptop to write my research on and I use it when I do a story.

How does you teacher help you with your learning?

I have a zooming thing, a magnify glass, for reading and a blue overlay. It goes really easier to read. Plus Miss Turtle got me some big books. She writes the story in a computer and makes it bigger so I can see it. Then I don't always have to use my magnifier.
